

COMPANY OVERVIEW

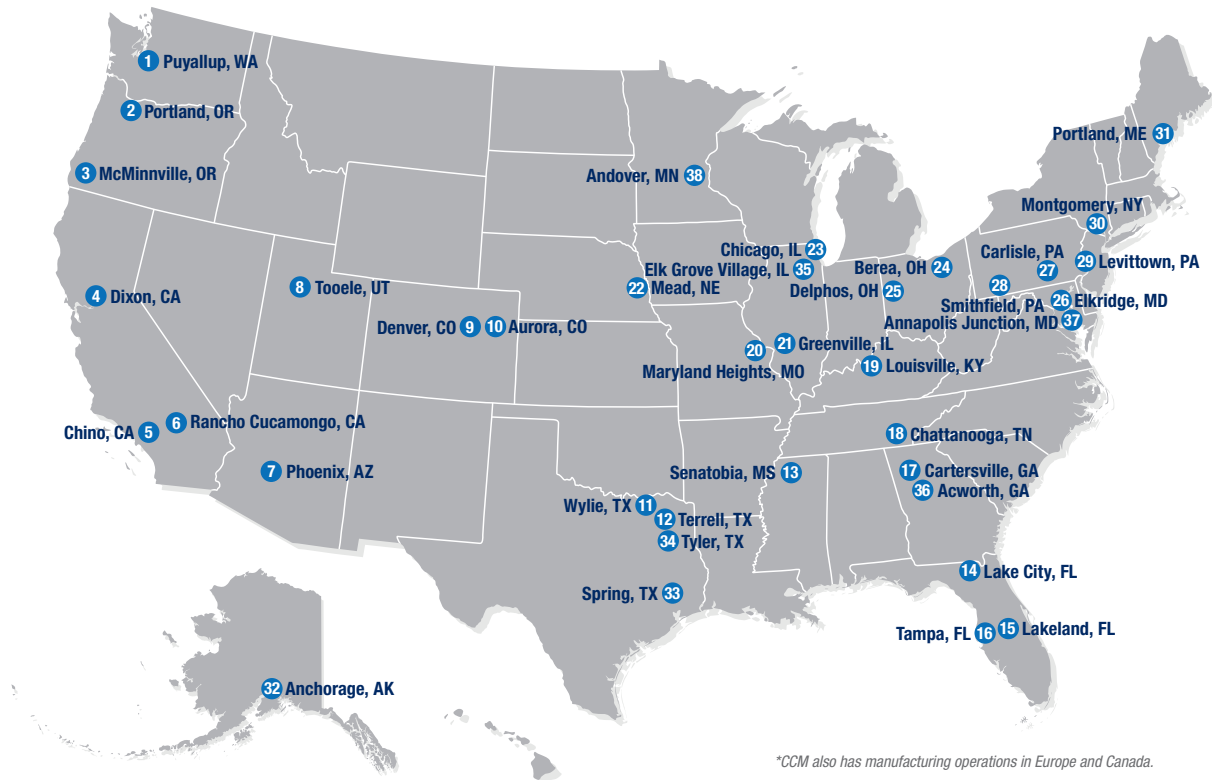

Carlisle Spray Foam Insulation (CSFI) is a part of the Carlisle Construction Materials (CCM) family of companies. CSFI is committed to creating the highest quality spray polyurethane products for more comfortable and consistent indoor temperature control and optimum energy efficiency. Carlisle's Open and Closed Cell spray foam products provide a high R-value per inch, expanding into crevices and cracks to create a precision seal that beats traditional fiberglass, cellulose, and other loose-fill products.

Carlisle Construction Materials LLC is a diversified manufacturer and supplier of premium building products and related technologies for the commercial and residential construction markets. Carlisle has been a recognized leader in the roofing industry for more than half a century, offering high-performance single-ply roofing solutions that include EPDM, TPO, PVC, and FleeceBACK systems. Carlisle also offers a full line of architectural metal, polyiso insulation, expanded polystyrene insulation, and a

host of steep-slope underlayments, duct sealants, adhesives, and hardware. Every CCM company offers sustainable, eco-friendly products that help reduce a building's carbon footprint and often minimize its energy consumption and costs.

CCM is a division of Carlisle Companies (NYSE:CSL). It employs over 2,400 people and operates 38 plants in North America and 5 in Europe.

**CCM also has manufacturing operations in Europe and Canada.*

TRAINING & EDUCATION CENTER

Carlisle believes strongly in the value of education and training. CCM's 68,000-square-foot Training & Education Center in Carlisle, PA, contains areas for classroom-style and hands-on training, including a section with "outside" conditions, as well as a theater-style conference room with seating for 135 people. The facility offers a combination of meeting, training, and administrative spaces and features state-of-the-art audio and video equipment, an interactive video wall, and a variety of informal gathering spaces and breakout rooms. Carlisle also has a training center in Las Vegas, NV, containing classroom space, an executive boardroom, and a technical training area complete with an indoor spray booth.

RESEARCH & INNOVATION CENTER

Carlisle Construction Materials is dedicated to leading the industry in innovation by developing and manufacturing the most progressive and innovative building materials on the market. Every Carlisle product is designed to enhance building performance and contractor efficiency. CCM is focused on bringing that experience to the spray foam industry. To that end, Carlisle has constructed a new Research & Innovation Center on their Carlisle, PA, campus.
