Action Required - Review and update manufacturer and product names in your project specifications

SECTION - 07 21 19 – FOAMED-IN-PLACE INSULATION

Thank you for continuing to include our spray-applied polyurethane foam insulation products in your projects' plans and specifications. We greatly appreciate the trust you place in our products.

The products you previously specified under Accella Polyurethane Systems are now manufactured by Carlisle Spray Foam Insulation (CSFI) and marketed under the SealTite™ PRO brand.

In November 2017, Carlisle Companies acquired Accella Performance Materials including all spray foam insulation manufacturing assets and technologies. The Accella spray foam business unit has been integrated into the Carlisle Construction Materials (CCM) operating segment and rebranded as Carlisle Spray Foam Insulation (CSFI). Additionally, products previously designed and marketed by Accella (BaySeal®, Foamsulate™, and QuadFoam®) have been consolidated under CSFI's new SealTite PRO family of products. These changes are intended to help reduce market confusion, simplify product identification and selection.

Please refer to this table for updating your specifications to the current product names.

Legacy Manufacturer	Legacy Product Name	Carlisle Spray Foam Insulation Product Names	Product Type
Accella Polyurethane Systems	QuadFoam 500	SealTite PRO High Yield	Low Density Open Cell
	QuadFoam Natureseal OCX	SealTite PRO OCX	
	Foamsulate 50	SealTite PRO No Mix	
Covestro	Bayseal OC+	SealTite PRO No Trim 21	
	Bayseal OC	SealTite PRO Open Cell	
Bayer Material Science	Bayseal CCX EcoBay CC Bayseal CC SealTite CC+	SealTite PRO Closed Cell SealTite PRO One Zero (HFO)	Medium Density Closed Cell

Our commitment to supporting architects and specifiers remains our highest priority. For the most up-to-date resources, including specifications and details, please visit our [website](#) or find us on MasterSpec®, ARCAT, and BSD SpecLink. You can also find our products listed in several Underwriters Laboratory (UL) fire rated designs: **U305, U301, U397, W421, U424, U425, V454, V499, V495, V313, L521, L528, L550, M540, P522, P531, and P545.**

Please feel free to reach out to me if you have any questions at 717-960-4407 or Kevin.Wiacek@CarlisleSFI.com.

Carlisle Spray Foam Insulation

Carlisle Spray Foam Insulation (CSFI) is a leading manufacturer of spray polyurethane foam systems in North America. Previously marketed under Accella Polyurethane Systems, CSFI is a fully integrated spray foam insulation solution that is backed by the technology resources—and grounded on the corporate stability—of a century-old icon in the building ecosystem, Carlisle Construction Materials. Our SealTite™ PRO spray foam building insulation products are formulated to provide the highest level of thermal protection in both residential and commercial applications.
